Chateau Svijany

Chateau Svijany was founded thanks to the tradition of the Svijany brewery, which dates back to the 16th century. Construction of the chateau was finished in 1578. Due to its turbulent history, it was closed to the public for a long time. In 2013, the Svijany Brewery decided to buy the dilapidated chateau and repair it. Thanks to the contribution of an EEA grant and Norwegian Funds, the idea succeeded and, following a major renovation, its gates opened to the public on 25 June 2016. During the renovation and the related archaeological survey, valuable discoveries were made such as a 3,000-year-old bronze pin and a secret passage in the underground area of the chateau..

Come see our exhibitions dedicated to archaeology, the history of the chateau and its environs, beer brewing and balneology; walk through the chateau garden and visit both the old and new chateau chapels, as well as the mysterious underground.

Beer Brewing Is a Traditional Craft

The Svijany brewery is one of the oldest breweries in the Czech Republic. Although the brewery's past is one of many ups and downs (with the possibility of full closure occurring on a number of occasions), we are happy to say that due to the persistent hard work of management and employees the Svijany Brewery is doing very well and is one of the top brewery in the country. Moreover, it's one of very few breweries that is still owned solely by Czech owners. The brewery brews over 600,000 hectolitres of beer a year – yet the production process remains the same as it was in the middle of the last century. You can try its products in the Brewery Restaurant or buy some in the brewery shop near the chateau premises.

Enjoy genuine Svijany beer, which is brewed using traditional Czech procedures.
